THE LOAN INCREASED

By the Council Committee on Ordinances to \$125,000.

TO BUY THE OLD ELECTRIC PLANT

Of the Wheeling Company, so as to be Able to Sell Incandescent Light. The Committee Passes Upon Several other Proposed new Measures to be Presented to Council this Evening.

Last night the council committee on ordinances met to consider several papers that had been ordered drawn. Solicitor Boyce was present, as were all the members of the committee. The ordinance making appropriations for the necessary city expenses in July was read and approved, as was also the ordinance appropriating the ten-cent levy fund for the improvements in the various wards. The only change made in this was in regard to the appropriation for paving Sixth street, in the First ward. The wording of this was so changed as to provide for resetting the curb, widening the sidewalk on each side three feet and decreasing the street space to be paved. The three-foot strip can be either put in grass or that width added to the sidewalk.

The ordinance readjusting wharfage charges in accordance with those prevailing in other cities was not presented in form, but Solicitor Boyce said he could have it ready by the time council met this evening. He said the objection had been urged that the decrease of rates would reduce the income badly, but the committee thought the only thing to do was to draw up the ordinance, as contemplated by the resolution referred by council, and let that body meet the issue.

The solicitor then read the draft of an ordinance providing for a loan of \$50,000. It was in the usual form of loan ordinances. The purposes to which the proceeds were to be applied were specified as follows:

Paying electric light bonds.....\$4,000 00
Interest on same.....4,320 00
Gas board shortage.....11,087 28

The balance was to be applied toward paying the remaining sum due on the Main street bridge. This sum was not named, as it is in dispute. The city claims its remaining liability is only about \$14,000, while claimants make it aggregate \$18,499 27.

When this clause of the ordinance was read, a motion was made to increase the proposed amount of the loan to \$125,000, so much of the increased amount as was necessary to be devoted to purchasing the plant of the Wheeling Electrical Company, so that the city can sell electricity to private consumers for incandescent lighting purposes. After brief discussion this proposition was adopted by the committee, and the solicitor directed to draw up a new clause covering the change. The committee then adjourned.

After the committee had adjourned a call was issued for a meeting of the finance committee at 7 o'clock this evening, just before the council convenes.

A New Alley and a New Grade.

The committee on streets, alleys and grades met last night and took up the proposed new alley north of Eleventh street from Eoff street to Charles. The solicitor was directed to investigate and secure a good title to the strip of land needed, and the surveyor instructed to run the lines where the alley would be if opened.

The ordinance establishing a grade of six inches to the 100 feet on Water street from Forty-second to Forty-eighth street was read, and the committee agreed to recommend its passage to council.

The High Water Pressure.

It is now said that the high water pressure will be on in the mains all over the city within ten days. The regulator at Market and Seventh streets is already in operation and the people should all have a satisfactory service by the middle of next week.
